Project Update
April 27, 2021

[illegible]

Part of the Great Streets Initiative is to develop the plan for **Providence's Urban Trail Network**. This is an ambitious plan to connect every Providence neighborhood to a safe, comfortable, high-quality shared-use path system, uniting many individual projects.

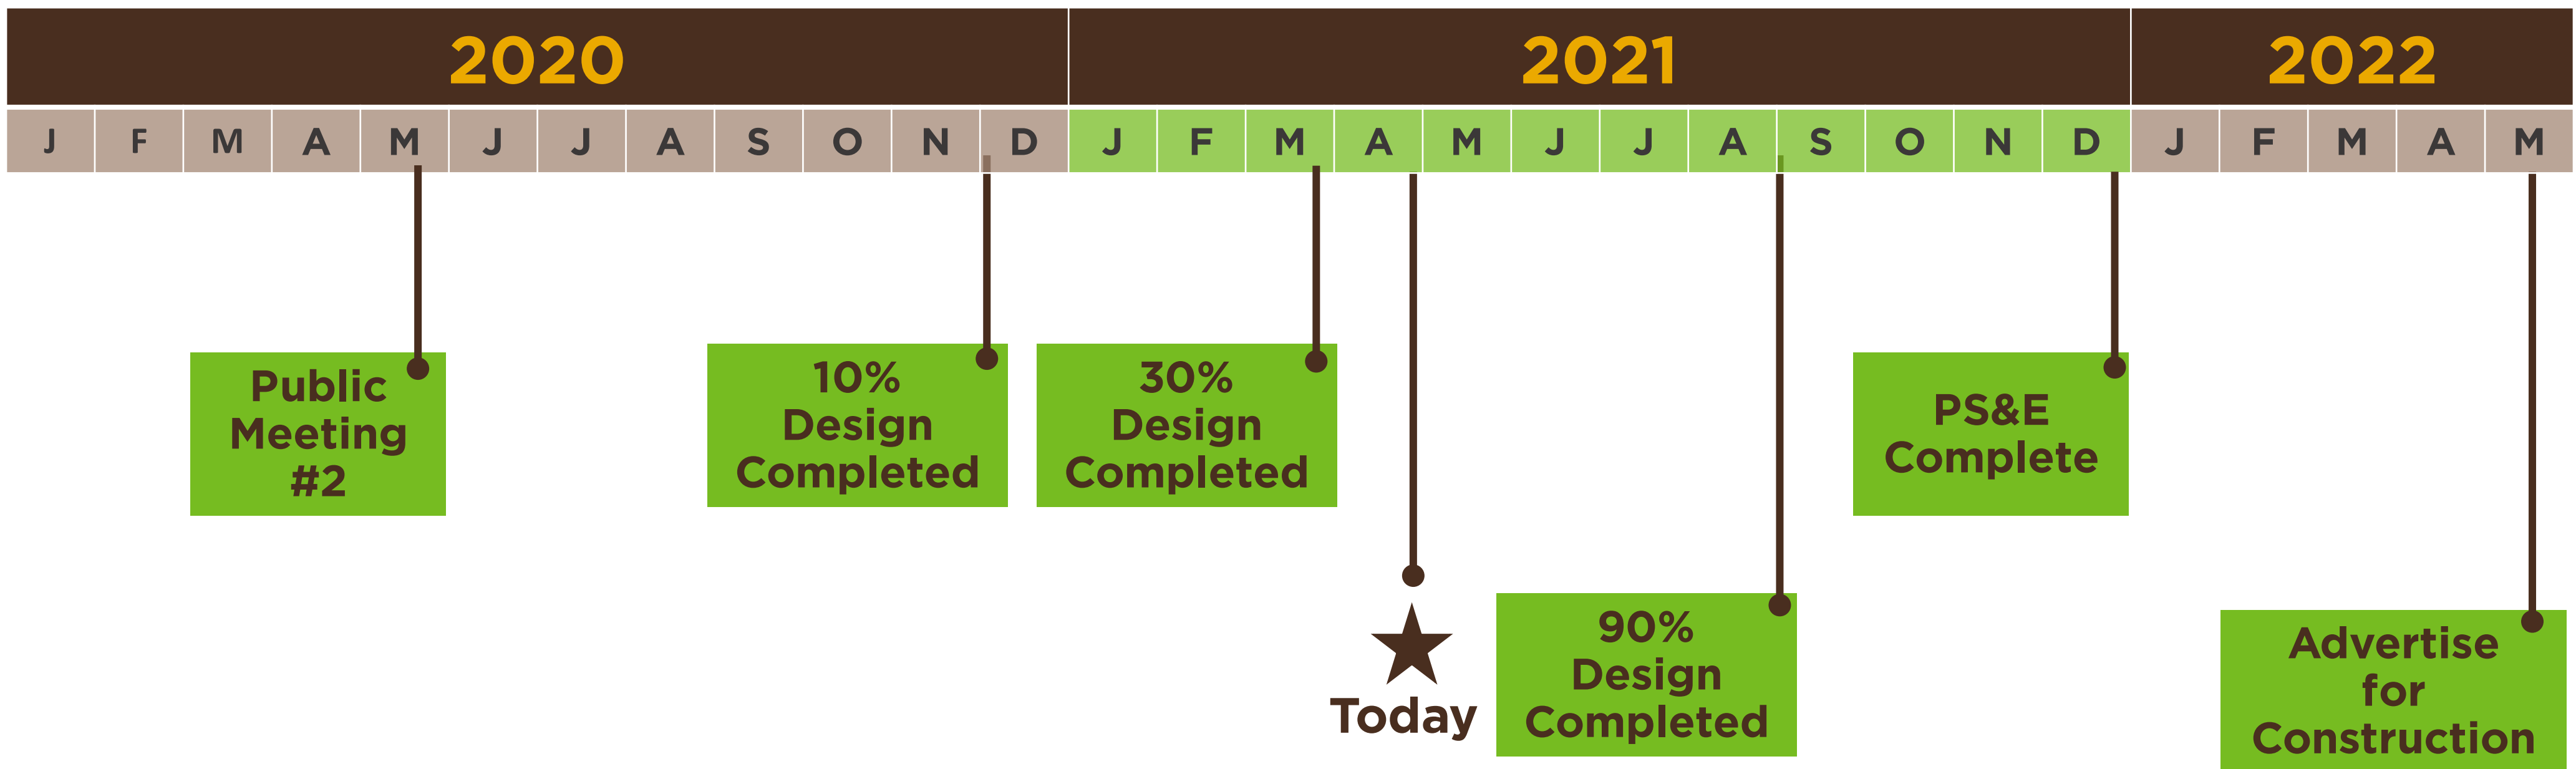

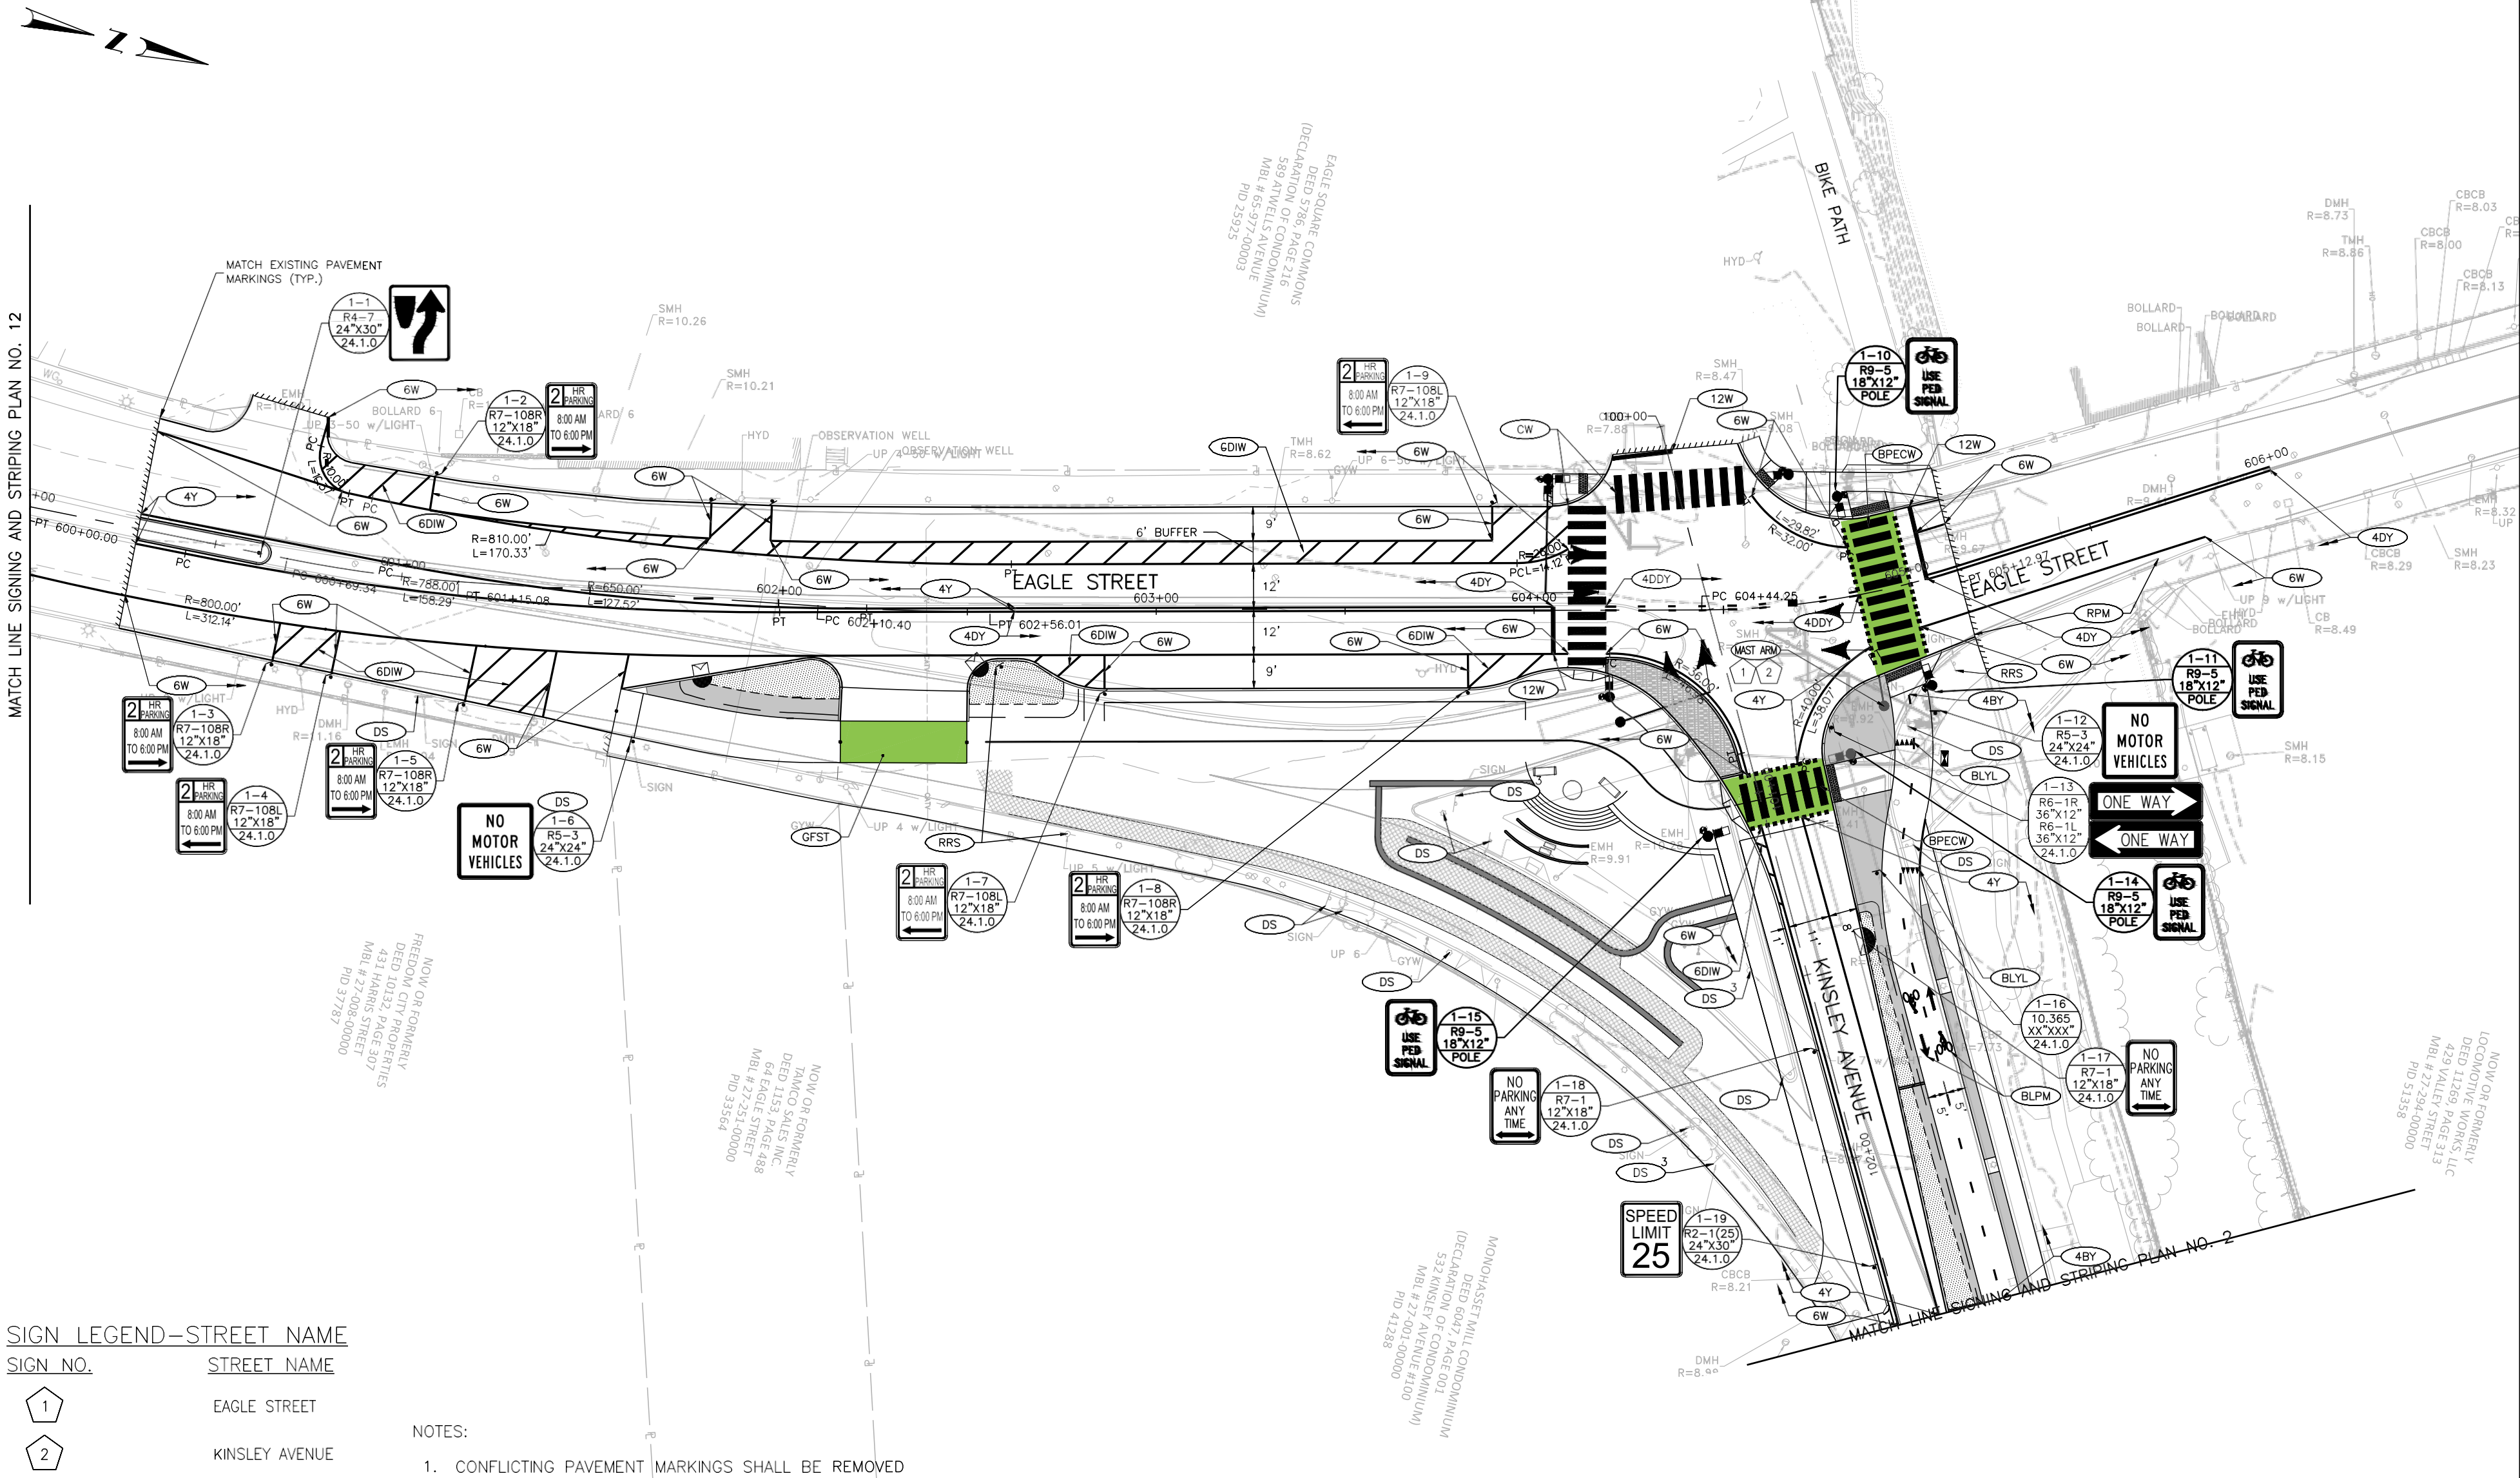

The **Woonasquicket Greenway Extension Project**, a key focus of the Woonasquicket Vision Plan and the Woonasquicket River Watershed Council and a key part of the Urban Trail Network. This project received nearly \$6 million in funding as part of the 2016-2025 State Transportation Improvement Program. This one-mile off-road, shared use path will provide a safe connection for those walking and biking between downtown Providence and Eagle Square. With an expected completion date of 2023, this project will improve the safety of pedestrians and bicyclists, provide additional transportation options for residents and visitors, enhance the urban/natural river interface, increase public recreational use of the riverfront, strengthen stormwater management, encourage economic development, and create stronger connections between Downtown and the Smith Hill, Valley, and Olneyville neighborhoods.

The area in the purple box is the project area for the **Unified Vision for Downtown Public Spaces**. More information about it can be found at imaginedowntownpvd.com
